

LA MARZOCCO®

HANDMADE IN FLORENCE

Vulcano

fresh coffee explosion

The Vulcano is a new family of espresso coffee grinders that bring together La Marzocco's distinct design with Mazzer's unparalleled technology. The Vulcano was inspired by the original 1960s model by Giuseppe Bambi, which won an award for its unique design at the Milan Expo in 1968. Constructed in polished stainless steel with matte black particulars, and available in two versions, standard grinder doser and grinder on demand, the Vulcano is a perfect complement to La Marzocco's new Strada!
